NOT AT HOME.

Minister West Refuses to See Newspaper Callers.

SECRETARY BAYARD ALSO DECLINES TO BE INTERVIEWED.

The President Contradicts the Statement that He Had Threatened Great Britain. The Rumor that Sir Charles Tupper Had Been Appointed Minister Creates a Sensation in Montreal.

WASHINGTON, Oct. 31.—There was no new development Monday in the Sackville West matter. Secretary Bayard declined to be interviewed, and Mr. West was "not at home" to newspaper callers.

The president, through Mr. Bayard, cabled Mr. Phelps at London, authorizing him to formally but positively contradict any statement to the effect that the president had in any way made threats as to what action he should take should the English government hesitate to recall Minister West. Minister Phelps was directed to say emphatically that the president had been misrepresented. He was directed to convey this denial to Lord Salisbury, should it be sprung upon him in his interview with the English premier to-day.

Of course, the dispatch addressed to the American minister in London by Secretary Bayard was not couched in the language given above, but that is substantially what was meant.

Mr. West, the chief of the corps of post-office inspectors, was asked if any steps had been taken by the department officials to investigate the circumstances in connection with the mailing and delivery of the now famous Murchison letter. He says the department has taken no action in the matter, and it is not probable that it will. There are several postal stations in Los Angeles, Cal., and it would be almost impossible to discover the person who called and received Lord Sackville's reply.

The British-American Association. CHICAGO, Oct. 31.—A circular has been issued by the British-American Association of the United States addressed to the citizens of the United States in regard to "the misunderstanding that seems to exist in reference to the relation of the naturalized British citizens of the United States to the great political parties of America."

They say they have no stronger liking for one political party than for the other, and "believe that any attempt to make it appear otherwise is particularly unfortunate and harmful to the best interests of the United States, and should nowhere receive countenance or support. Certainly it should not be allowed to govern the political action or excite the prejudice of honest or patriotic men."

A Sensation in Montreal. MONTREAL, Oct. 31.—The publication of the appointment of Sir Charles Tupper as Minister West's successor, created a sensation here Monday.

Sir John Macdonald was asked as to the truth of the announcement. "You must excuse me, for I have nothing whatever to say," he said. "I wish to keep clear of the Sackville incident entirely."

"When will you speak about Sir Charles Tupper's appointment?" Sir John hesitated, and then said slowly: "Perhaps I will say something to-morrow."

The Tupper Story Not Believed. OTTAWA, Ont., Oct. 31.—The rumor that Sir Charles Tupper was to be appointed successor to Sackville West was started by an evening paper here Monday, and obtained no credence in official quarters. A government officer states that Great Britain is not accustomed to select her ministers to first rate powers from among her colonial subjects, and is not likely to establish any such precedent.

A Semi-Official Rumor. LONDON, Oct. 31.—The semi-official Standard says: It is understood that Lord Sackville has intimated his readiness to place his resignation in the hands of Lord Salisbury. The British press continues to take varied views of the Sackville indiscretion.

Patrick Egan Denies It. LINCOLN, Neb., Oct. 31.—Mr. Patrick Egan arrived at his home in this city Monday evening. In an interview he denies the authorship of the Murchison letter, and says he knew nothing about the letter until he saw it printed in New York.

There is not one person in 100 of the millions who travel on railroads in the course of a year who has any idea of the speed of a train. A large per cent. of even the regular trainmen of the country cannot tell with any degree of accuracy how fast a train is running. Frequently engineers are dispatched on a trip over a line of railroad with instructions to run at a speed of a certain number of miles an hour. The engineers do not carry a speed indicator, but have learned by various methods to gauge their engines so as to make only the slightest variation from their orders.

The majority of engineers use their driving wheel as a gauge. They know its circumference, and by counting its revolutions within a certain time can tell very accurately the speed at which they are running. Another method is to time the run between mile posts, and still another is to make calculations from the number of telegraph poles passed in a certain time. These poles, in a level country, and where four or five wires are used, are spaced so that they are thirty to the mile. If only a single wire is used they are spaced from twenty-five to twenty-eight to the mile.

The most accurate method, and the one most in use by experienced railroad men, is to count the number of rail joints the train passes over in twenty seconds. The rails in nearly all cases are thirty feet in length, and the number passed over in twenty seconds is the speed per hour a train is running. For instance, if a passenger sitting in a sleeper can count thirty clicks of the wheels on a rail joint in twenty seconds the train is running at the speed of thirty miles an hour.—Kansas City Times.

COLLAPSE OF A BRIDGE.

One Man Killed and Several Injured Near Duquoin, Illinois.

DUQUOIN, Ill., Oct. 31.—A report reached this city Monday afternoon of the sudden collapse of the large Howe iron truss county bridge, near Blairsville, sixteen miles south of here. The bridge was 170 feet in the clear and forty-eight feet above high water, the one span reaching clear across Big Muddy river. A gang of men were at work repairing the flooring, and an order was given one of them to loosen a girder a fraction of an inch. The girder was one of the main supports, and one turn of the wrench swung the bridge out of plumb, and without a moment's warning the vast mass dropped to the water, fifty feet below.

William Thompson was instantly killed and ten others fatally or seriously hurt. The injured are: W. H. McRay, broken collar bone. Arthur McPhee, jaw broke and hurt internally.

James Campbell, left leg broken, one eye knocked out and head crushed. He will die. D. M. Afield, both arms broken and left side crushed.

John Edmunds, back broken and dangerous internal injuries. He cannot recover.

Thomas Robinson, one arm broken and badly crushed.

Miles Harris, broken arm.

Frank Leech, fingers of one hand cut off.

Theodore Harris, both hips broken.

An unknown man badly crushed.

A valuable team of horses were killed. The bridge was built in 1875, and cost \$5,500.

TWO WRECKS.

Both on the Cincinnati Southern—An Unknown Man Killed.

SOMERSET, Ky., Oct. 31.—Two wrecks occurred on the Cincinnati Southern Monday evening. An extra freight southbound ran into No. 11 at Pulaski station. One passenger, name unknown, who boarded the train at King's Mountain, was killed outright and a few of the train men slightly bruised. The cars were badly smashed and the engine of No. 11 demolished.

The other wreck occurred near Nicholasville, at the Jessamine water tank. No. 12 was taking water at that place, when a through freight dashed into the rear end and derailed the engine and a number of cars. Engineer J. B. Howard was cut in the arm and head. Fireman R. J. Lucas had a knee sprained. Squire Devine, a brakeman, was bruised about the hips and had two fingers broken.

BLOWN TO PIECES.

A Tug Boat Boiler Explodes Near Milwaukee—Four Lives Lost.

MILWAUKEE, Oct. 31.—The boiler of the tug Lawrence burst at 2:35 a. m. off North Point. Capt. Sullivan, Engineer Sullivan and Fireman Sullivan and the lineman Thomas Handley, who were near the bursting boiler, were blown to pieces. The tug Merrill, which was near by at the time of the explosion, at once came to the rescue and picked up Frank McGowan, the cook, and Thomas Dooley, who was on board as a visitor. A thorough search was made by the tug Merrill but no traces of the mangled bodies could be found. The Lawrence was owned by McCoy & Bannen, and was designed principally for towing a sand scow. It was valued at \$5,000. Capt. Sullivan was one of the best known tugmen on Lake Michigan, and was a brother-in-law of Alderman McCoy.

A Government Clerk Arrested.

ROCK ISLAND, Ill., Oct. 31.—Richard O. Warren, disbursing clerk at the Rock Island arsenal, has been arrested for embezzling government funds. The amount of his discrepancies is not known. The discovery of a shortage of \$80, in order to secure which he had ingeniously covered up his tracks through a series of book accounts, led to his arrest, and he was held in bonds of \$1,000 to await trial at the United States court in Chicago in December. Warren has been in his position twenty years. He is a resident of Davenport and his arrest has created a great surprise here.

A Gigantic Undertaking.

BOSTON, Oct. 31.—Business men and manufacturers of Springfield, Holyoke and Chicopee, representing \$13,000,000 incorporated capital alone, have issued a call for a mass-meeting to be held in Springfield Nov. 1, for the purpose of organizing the Connecticut River Improvement association. The design is to obtain from congress an appropriation to open the river above Hartford on the plan recommended by the United States engineers, which involves a canal from Enfield to East Hartford and the necessary dredging at different points.

A Railroad Cashier Absconds.

TORONTO, Ont., Oct. 31.—Louis Helm Slonaker, cashier at Sioux City, Iowa, for the Chicago & Northwestern railway, who is said to have absconded some time ago, having embezzled about \$4,000 of the company's funds, was traced to this city. After locating him here it was ascertained that he had committed forgery in order to secure the money, and an information was laid before the county judge and the extradition warrants issued. He was arrested last night.

The Only Champion.

NEW YORK, Oct. 31.—In a letter to the editor of the Illustrated News John L. Sullivan says he is the only champion, and hopes to be prepared at an early day to defend the title against all comers. Kilrain, he says, will have the first chance, and if they meet he has no fear of the result.

An Elopement Overtaken.

WILKESBARRE, Pa., Oct. 31.—Monday Mike Dryluich, a miner at Nanticoke, eloped with a young Hungarian girl. Two brothers of the girl pursued the runaway and on coming up with the pair backed Dryluich so with an ax that his recovery is very doubtful.

Prize Fight Postponed.

BOSTON, Mass., Oct. 31.—Monday a delegation of Providence sporting men visited Boston and arranged with Joe Lannon for a postponement of the Lannon-Ashton battle, which was billed for November. The time settled on was on or about December 15.

RETALIATION.

The President Said to Be Preparing a Proclamation.

BASED UPON THE EXISTING ACT AGAINST CANADA.

The Object is to Inform Our Northern Neighbor That Our Commercial Rights Must be Respected—American Interests Jeopardized in Hayti—Washington News Notes.

WASHINGTON, Oct. 31.—A story is current in political circles that the president is preparing a proclamation, based upon the existing retaliation act against Canada. The tenor of the proclamation will be the president's answer to all insinuations that he has not been sincere in his opinions about the necessity of enforcing retaliatory measures.

The object of the proclamation will be to give timely warning to the Canadian government that unless due regard is paid to our commercial rights, the law will be enforced as strictly as the privileges of the act will allow.

Montana Territory Report.

WASHINGTON, Oct. 31.—Governor Leslie, of Montana, in his annual report, speaks of the marked advancement in all branches of industry, especially the mining business. He says the population has steadily increased; the rate of taxation is low, and the treasury in excellent condition, not owing a dollar. He instances the advantages for manufacturing enterprises, especially for men with small capital, and shows that within three years almost two million acres of land have been settled upon and made fine farming properties.

The school system of Montana he regards as a striking evidence of the thrift and spirit of the people. Legislation for the protection of the forests and a liberal policy in erecting buildings for territorial purposes are recommended.

Hayti Gets Fresh.

WASHINGTON, Oct. 31.—The secretary of state has requested the navy department to send a man-of-war to Hayti to protect American interests there, which appear to be jeopardized by the seizure of the American steamer Haytian Republic at St. Marc. The Boston, the only available vessel of the North Atlantic squadron, is now in some Central America port, beyond the reach of the telegraph. Efforts, however, will be made to communicate with her and it is expected she will be able to reach Hayti in a few days.

Released From a Mexican Prison.

WASHINGTON, Oct. 31.—The state department is in receipt of a dispatch from Minister Bragg saying that J. B. Lawrence, an American citizen, who has been confined in Silao, Mexico, on a charge of train robbery upon the Mexican Central Railway, state of Guanajuato since June 17, 1888, was discharged from custody on the 29th instant.

Paris Exposition Commissioners.

WASHINGTON, Oct. 31.—The president has appointed Spencer Baird Newbury and Rush C. Hawkins, both of New York, assistants to the commissioner general to the Paris exposition.

AXWORTHY'S TROUBLES.

They Began With the Fidelity Bank Failure—Two Vessels Attached.

CLEVELAND, O., Oct. 31.—Bonds, stocks and miscellaneous securities appraised at \$132,000 were found Monday afternoon in Mr. Axworthy's private vault in the National Bank of Commerce. Experts say that if attended to these securities are likely to realize about \$300,000. Axworthy's friends still insist that more property will be found, and that an accident or foul play has caused Tom's absence from the town. But as the investigation goes on it shows that Axworthy has been in financial straits ever since the Fidelity bank failure.

Since the winter of 1886 he has converted \$102,000 worth of real estate into cash. The real estate now in his name is valued at \$42,000, and is mortgaged for \$14,000. His shipping interests are not worth more than \$50,000, so that for a shortage of \$480,000 only about \$225,000 worth of property, including Monday's find, is left. A special session of the grand jury is to be called this week to indict Axworthy.

Two of Axworthy's Vessels Attached.

DULUTH, Minn., Oct. 31.—Thomas J. Axworthy's schooner, J. G. Masten was brought here Monday from Ashland, and it and the schooner Keystone were attached by a Cleveland attorney. The boats are valued at \$65,000.

Freddy Gebhardt's Suits.

NEW YORK, Oct. 31.—Seven suits have been begun in the supreme court by Platt & Bowers on behalf of Frederick Gebhardt, five of his employees and Matthew Storm, a horseman, against the New York, Lake Erie & Western Railway company, for the recovery of \$100,000 damages for personal injuries and loss of valuable horses in the accident at Shohola, Pa., last summer. A motion was made before Judge Barrett, in chambers, yesterday, to make the complaint more specific. Decision was reserved.

Earthquake in Massachusetts.

NEW BEDFORD, Mass., Oct. 31.—This city was visited by two well-defined earthquake shocks Sunday night. At the Weld-street Police Station the shocks were felt at 11:25 p. m., and were preceded by a rumbling sound, and three distinct oscillations were felt, followed by a tremulous movement. The shocks were distinctly felt across the Acushnet in Fair Haven.

Heavy Damage By Incessant Rains.

JACKSON, O., Oct. 31.—It has rained twenty-one days out of the last twenty-seven in the month. The farmers report a great deal of corn ruined, being cut when green and now moulded and spoiled. Late potatoes are not dug and are rotting. Much hay is spoiled, being literally deluged and growing green on the sides of the stacks.

POINTED PARAGRAPHS.

Topics of the Times Given in a Terse and Spicy Manner.

Postmaster General Dickinson arrived at Chicago Monday. Frank Westjohn, a well known sporting man, dropped dead in a cigar store at Cincinnati.

John Hillfoyle, a Chicago letter-carrier, was killed by Patrick Pedar, a bartender in a saloon.

Six men are in the Xenia, Ind., cooler on suspicion of being the murderers of Andrew Morgan.

Judge Thomas A. Walker died at Selma, Ala., Monday. He was a general in the Indian war.

At Jacksonville, Fla., Monday, there were four deaths and thirty-six new cases of yellow fever.

George Eddleman, on trial at Atlanta, Ga., for the murder of Tom Gresham, was acquitted.

James W. Rarden, committed suicide at Frankfort, Ky., because of trouble with his sweetheart.

Judge Delano R. Eekles died at Greencastle, Ind., after a lingering illness, in the eighty-third year of his age.

Both Democrats and Republicans will have a big rally and two processions at Indianapolis Saturday night, and have ordered out all their clubs.

Thomas Hill, a commission merchant at Detroit, suicided by shooting himself in the mouth. It is supposed that financial reverses caused the rash act.

Burglars entered James F. John's office at Goshen Mills, O., Monday night and blew the whole front off of his money safe. They only got a few dollars.

At Newark, O., Marshal Rickenbaugh is relieved by the council of the duty of arresting others for the same irregularities of which he himself is guilty.

The Clyde line steamer Saginaw, while loading at her dock in East river for the West Indies, listed and sank. No lives were lost. The vessel will be raised.

Fred Galletty, Salvation Army captain, was fined by the mayor of Newark, O., five years ago, for parading his army. The judgement has just been reversed.

Albert Wallace, colored, was arrested at Hopkinsville, Ky., on a charge of having stolen a valuable horse from William Yonce, of Trigg county. He confessed.

At Worthville, Ky., Rome Way and Jack Butcher were seriously shot by Wm. Tevis—one in the leg and the other in the abdomen. It is not thought that either wound is fatal. Politics.

"Windy" Watkins, a notorious crook, declared that he would die before he would surrender to any web-footed Hoosier marshal of Huntington. He kept his promise a moment later with a bullet from his captor's revolver in his brain.

Judge Gresham at Chicago has remanded to the superior court the suit of J. J. Dickey against Abbie M. Baker and other heirs of Mrs. Beulah C. Dickey. This is a suit to set aside the will made by Judge Dickey giving all his property to his wife, Beulah C. Dickey.

Hermann Baade, section foreman on the Burlington road, started for Dubuque on a hand car with his wife, three children and a friend. On a curve they were run down by a special. Mrs. Baade and her two sons, aged seven and thirteen, were instantly killed. Baade and the other man escaped. Mrs. Baade threw her baby down a bank twenty feet high and saved its life. Baade threatens suicide.

POLITICAL EXCITEMENT.

A Law That May Disfranchise a Large Number of New York Voters.

NEW YORK, Oct. 31.—Some little excitement has been caused in political circles by the published statement that the laws of 1887, chapter 280, relating to the legal holidays and the closing of public offices would disqualify all who had registered after 12 o'clock on Saturday afternoon. It was conceded by a number of prominent lawyers, who were seen by a United Press reporter, that the various registration offices were public offices, and thus the inspectors were public office holders for the time being. None of these jurists, however, would give a decided opinion, and the question seems to have thoroughly stirred up the lawyers of this city.

David J. Deane, first assistant to Corporation Counsel Beelman, said: "The question is certainly a novel one and must be decided by the courts. There can certainly be no question about the legality of the act, but like the La Comb matter, it is similar to those inexplicable laws which are continually creeping into our statute books and which are only settled after considerable wrangling."

The leaders and prominent men of both parties are much exercised over the question.

The Cornwall Canal Break.

MONTREAL, Oct. 31.—The new land slide on the Cornwall canal on Saturday will cause heavy loss, shippers having built on the promise that the old break would be completed so that grain-laden vessels could deliver their cargoes to-day. A gentleman acquainted with such matters, and who has just returned from the break, says the work is being conducted in a slipshod fashion, and is further back than it was a week ago, which, together with the new break, practically means the close of inland navigation for this season. A million bushels of grain which had been kept waiting for repairs, must now come down by rail at an added cost of four cents per bushel. Besides this, several large factories on the canal using water power have had to shut down, causing much distress among working people.

The Nun of Kenmare.

PITTSBURG, Oct. 31.—A local says that it is positively able to state that the celebrated Sister Mary Clare, the Nun of Kenmare, has changed her religious views, and is now actively opposing the Roman Catholic church.

LET POOR MEN READ

How the High Tariff Taxes Them on the Necessities of Life,

But Gives the Rich Their Luxuries Free—Facts and Figures.

The workman who votes in favor of the Republican party at the election next Tuesday will vote against his own interests;

He will vote to continue a system of high tariff taxation that was adopted as a war measure;

He will vote to continue a tariff that is robbing him every day on the necessities of life and enriching such men as Carnegie, who makes \$1,500,000 a year and then turns around and tries to compel his workmen to accept a reduction of 10 per cent. in their wages;

He will vote to continue a system that is making the rich richer and the poor poorer, that is making millionaires out of the few and paupers out of the many.

Workingmen, you who toil from daylight till dark in order to keep body and soul together, will you vote to continue such a system any longer? It is taxing the people millions of dollars every year more than the government needs. It is taking these millions out of circulation where they belong, and locking them up in the vaults of the treasury where they can do no one any good.

This system is iniquitous, it is unjust, it is burdensome, it is full of inequalities.

The Republicans pledged themselves as a party four years ago to correct these inequalities, but they make no such pledges this year. Instead of this they promise you "free whisky and cheap tobacco."

And what are these inequalities? They are many. Read and see how the luxuries have been made free or reduced to a small per cent., while the tariff tax has been left on the necessities of life. Here is a list of luxuries, compiled by the New Haven, Conn., Register. It will be seen that nearly all are free:

In the language of the Register, we ask those of our readers who work six

days in the week for a living and are denied the luxuries of a large bank account to let their eyes wander over these two tables and determine for themselves which is for their interest, free diamonds or free crockery, free antiquities or free lumber?

What a humbug, to be sure, this tariff for protection's sake is. Vote for Cleveland and tariff reform, a Congressman who will support the Mills' bill, and open the way for a reduced cost of living.

FOREWARNED.

Republican Racket Given Away by the Bungling of Their Executive Committee.

A Sardis Democrat Gets a Confidential Circular From Davis and Wadsworth.

"Forewarned is forearmed."

The Republicans are engaged in a quiet, determined and desperate effort to elect Burchett and retain control of the Ninth Congressional district.

If any Democrat has doubted this, the proof is at hand to set the matter completely at rest. And the funny part about the whole business is that the thing has been given away by the bungling of the Republican Executive Committee.

Messrs. Thomas A. Davis and W. H. Wadsworth, Jr., are the bunglers.

Mr. Nathan Campbell, of Sardis, says he has always been a Democrat. Hence one can imagine his surprise when, a few days ago he received the following interesting document by mail:

HEADQUARTERS MASON COUNTY EXECUTIVE COMMITTEE. MAYSVILLE, KY., October 20, 1888.

My Dear Sir: The National election and the election for Congressman is rapidly approaching. Remember that Tuesday, November 6th, 1888, is election day. Your special efforts are particularly requested and urged in organizing the Republicans in your precinct, and in getting to the polls every man who will vote for Harrison and Morton for President and Vice President, and for Drury J. Burchett for Congressman. See that our vote is gotten out in your precinct. Let the work go on quietly but energetically. Truly your friend, THOMAS A. DAVIS, Chairman.

W. H. WADSWORTH, JR., Secretary.

The following from Mr. Campbell shows that the Republicans struck the wrong man when they wrote to him:

SARDIS, KY., October 29, 1888. Editor Bulletin—Sir: Enclosed you will find letter addressed to me. It must be a mistake, as I have always been a Democrat and see no cause to forsake the party now. You can do us your pleasure with this letter, as I have no use for it. Yours, NATHAN CAMPBELL.

The letter from Messrs. Davis and Wadsworth shows that it has been hectographed, and no doubt hundreds of copies of it have been distributed throughout this county.

The letter shows that the Republicans are "quietly and energetically" at work.

Let the Democrats profit by the knowledge they have gained. They are waging a vigorous campaign, but from now on till the polls close they should renew their efforts and fight with redoubled energy.

See that every Democratic vote is polled next Tuesday, and the rout of the Republicans of the Ninth district will be complete.

Let the work go on not only "quietly and energetically" but with that vim and vigor that rolled up a majority of nearly 1,200 last August for Sheriff-elect Alexander.

We thought so. The Republicans of Ohio are scared up over that State, and are urging that every vote be polled. Actually afraid the Democrats are going to slip up on 'em.

Every time a Democrat speaks at Flemingsburg the Republican club lock their colored members up in the club rooms. They fear the effect of the telling arguments the Democrats usually make.

The farmers of this country are mortgaged to the money lenders for ONE BILLION TWO HUNDRED AND NINETY-FIVE MILLION DOLLARS. Has the high tariff benefited them any? It doesn't look like it. The plain truth of the matter is the high tariff has been robbing them to enrich Carnegie and his class. Vote for Paynter.

OUR NEIGHBORS.

MORANSBURG.

Miss Mollie Pickett is quite ill with the fever.

Miss Susie Brittain is still very low with typhoid fever.

Mrs. Lizzie Hixson, of Bath County, is visiting her parents this place.

Rev. E. C. Savage preached at the old Stone Church last Sunday morning.

The continued wet weather will make the farmers late in finishing their seeding. William Proctor, Buck Straubough and Henry McDonough represented this place at the Expo at Cincinnati last week. John L. Chamberlain, one of Maysville's rising young lawyers, addressed the Lawrence Creek Bandana Club last Saturday night. The event of the season was the hop given at the residence of Mrs. Osborne last Thursday night.
